

## Shortly about myself

February 2018

In the last 13 years I live and work in Scotland. I am an individual entrepreneur, and I am engaged in the construction and restoration of traditional stone buildings. More details about this here [www.rbwalling.co.uk](http://www.rbwalling.co.uk) .

\* \* \*

Born in 1959 in Riga, grew up and graduated from school there. In 1984 graduated from the Moscow State University with a degree in chemistry, then until 1990 worked at the University of Latvia.

Participated in perestroika movements my own way, then until 1997 was an official at the government of Latvia, a consultant in international organizations such as the EU and OECD.

Then tried to engage in business, but in 2004 was forced to leave Latvia.
